Telstra Fleetcoms™

South Australia

Effective
1 October 1994

- **Wide Area Coverage**
- **Adelaide Metropolitan**
- **Gawler & Willunga**

The coverage map shows the extent of the **Telstra Fleetcoms** service. However, as with any radio based system, in some areas you may experience only marginal coverage as radio signals can be affected by local topography and man-made structures. In some instances coverage will be beyond that which is shown on the map. Higher powered mobiles will generally experience superior performance than hand-held mobiles.

Telstra Mobile Satellite & Radio Services
